

PINE LUMBER MANUFACTURERS IN THE UPPER PENINSULA OF MICHIGAN

Source: DNR. 1996. **Wood Products in Michigan, A Directory of Mills & Manufacturers** (Note: there is a more recent edition that may reflect mill openings and closures since 1996.) This is not a complete and comprehensive listing. Also, the DNR Forest Management Division manages a searchable Wood Products database at: <http://www.dnr.state.mi.us/dnr/main.htm>

The following list includes entries from the DNR directory where red pine, white pine, or jack pine are utilized AND lumber is manufactured. The pine may, or may not, be used to manufacture the lumber. Often these pine species are not a major component of an operation. Manufacturers of all sizes are listed. Pine species and other softwoods are utilized by many other Upper Peninsula manufacturers for products other than lumber.

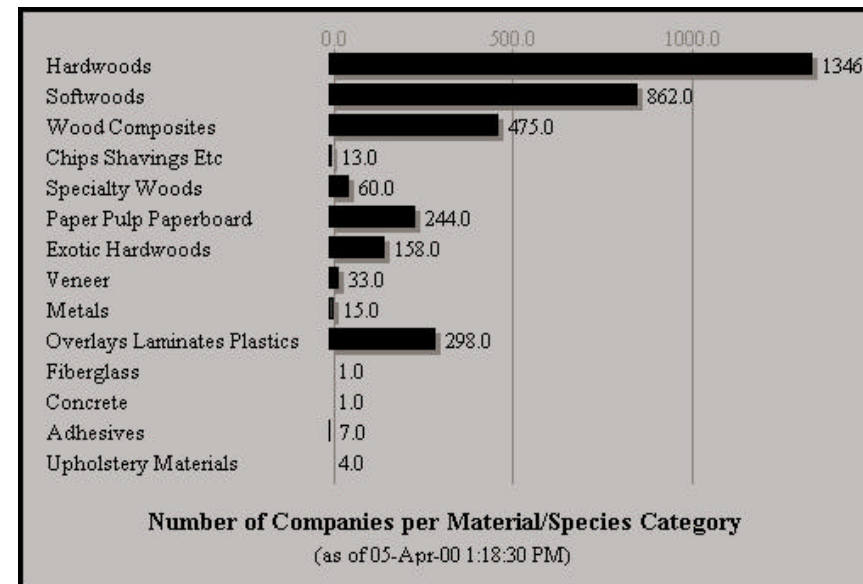

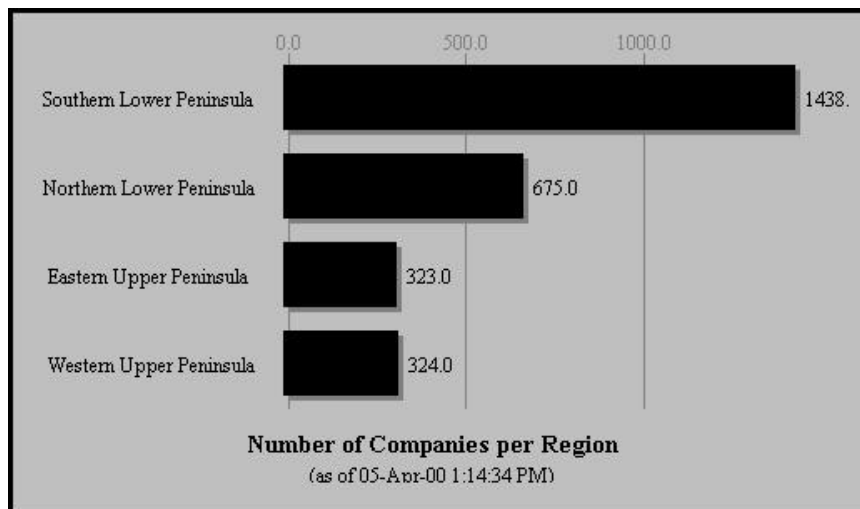

Company Name, Location, and Contact	Employees & Volume Used Annual Sales	Products	Species Used
Richmond & Hawley Lumber, Inc. Chatham, Alger County Keith Richmond, 906-439-5115	about 10 MBF 1000-3000 \$500,000-\$1,000,000	lumber ties, cants, dimension, fences, sheathing	white pine hardwoods
